**Toshiba Completes Installation of New Vista-Light VL-6 LED Screen at Foxwoods®**

On July 3, Toshiba proudly completed the installation of the Vista-Light VL-6, LED screen at the MGM Grand addition to the Foxwoods® Casino and Resort in Mashantucket, Connecticut. The VL-6 was chosen for its impressive brightness and high resolution that make the screen suitable for use both day and night.

The screen stands outside the main MGM entrance and is a double-sided, 3 m high x 4 m wide (10 x 13 ft.), with 640 x 480 pixel resolution, 25,600 pixels/square meter. This installation marked the first installation of the new Vista-Light product.

Toshiba's new Vista-Light series uses virtual pixel-sharing technology to offer the utmost in vivid colors and sharp images. The series provides a broad range of sizes and configurations for fixed indoor and outdoor installations while delivering the proven Toshiba track record of performance and reliability. Vista-Light processing features CAT5 or Fiber Optic connectivity for easy installation, and low maintenance.

In 1986, the Mashantucket Pequot Tribal Nation opened the original high-stakes bingo hall. Today Foxwoods is the largest casino in the world, with 340,000 square feet of gaming space in a complex covering 4.7 million square feet. More than 40,000 guests visit Foxwoods each day. MGM Grand at Foxwoods has added nearly 2 million square feet of overall space, featuring increased hotel, entertainment, restaurants, and gaming, as well as enhanced corporate retreat, meeting and convention resources.

Toshiba produces a versatile range of lightweight indoor, outdoor, and multi-purpose displays that are hallmarked for their outstanding picture quality and product durability. Toshiba is also renowned as the first manufacturer of LED displays to offer modular HDTV screens to the worldwide rental market.
