

RemotEye II Revision Summary				
RemotEye II P/N	Lastest Revision	Hardware Revision	Features	
RemotEye I	Ver 2.05	Yellow Color Packaging	SNMP Monitoring	
RMTI-INT-R2 (Internal)	Supported UPS:		Web Monitoring	
RMTI-EXT-R2 (External)	1400 Series			
RMTI-EXT-BI (External)	1500 Series			
	1600EP Series			
	4200 Series			
RMTI-INT-R25 (Internal)	Ver. 3.04	Internal Card: Additional daughter board on the top. Front view has 4 LEDs (only 2 LEDs on R2) to show status.	Ver 2.05 Features	
RMTI-EXT-R25 (External)	Supported UPS:		Additional Features:	
	1000 Series			Email
	1400 Series			100 Base-T Network
	1500 Series			
	1600EP Series			
	4200/4200 FA Series			
	G8000 Series			
		External Card: Shows 10/100 UPS network card at the front. 		

## RemotEye II Ver 4.07 Changes Summary List

- \* Add "User Defined Overload Set Point" in HTML UPS Management Page
- \* Add Fahrenheit for EMD temperature
- \* Add EMD Event trigger shutdown.
- \* Add EMD event id (over temp/alarm1/alarm2) for RSH.
- \* Add EMD MIB for SNMP
- \* Add "Output Current" to HTML
- \* Add JAVA (monitor) battery voltage (%) formula for 1000 Series
- \* Add Auto Daylight Saving Time
- \* Add Microsoft SMTP NTLM feature
- \* Add Shutdown Client from 32 clients to 250 clients.
- \* Add Japanese language.
- \* Modify Output Load % to Output Load (Amp) for G9000. Other type will be still output load (%).
- \* Modify "Input Active Power" item of HTML – change from displaying 1<sup>st</sup> phase value to average value
- \* Modify Input Active Power 3P Systems Formula.(4200/G9000)
- \* Modify output current formula (4200/8000/G8000MM/G9000).
- \* Fixed "4200 Total Backup count, LCD display 64 (correct value), but RemotEye II display 6".
- \* Fixed "Date and time not writing to UPS" issue.
- \* Fixed "Battery voltage Percentage" field formula for G9000.
- \* Fixed "Input Current" field formula for G9000.
- \* Fixed "Output Current" display error of UPS 4200, G8000, G8000MM and G9000
- \* Fixed "Power factor and Output Apparent Power" issue for 4200, G8000 and G9000.
- \* Fixed Bypass current is not correct (4200/8000/G8000MM/G9000).
- \* Fixed duplicated mail of "On Battery" event.
- \* Fixed E-mail account index 4 cannot work properly.
- \* Fixed EMD Setup page error on IE8.
- \* Fixed Java time display error of Java Monitor Applet.
- \* Fixed RemotEye II incorrect time reporting.
- \* Fixed upsEstimatedChargeRemaining get wrong value of 1000 Series.
- \* Hide "Output Current" of G9000 and fixed "Input Active Power" error of G9000.
- \* Improve UPS alarm detecting.
- \* Improve UPS status updating.
- \* Remove battery Test and Battery Test schedule for 1600EP (E3 Series).
- \* Remove UPS control/Battery test/Battery test schedule (G8000MM & G9000)
- \* Remove wording – "N/A for G9000", and show empty bar on "Output Load" when G9000 is present.

\* Shutdown Client Update
