## Quality, Environmental, Health, Safety and Information Security Policy

Toshiba International Corporation (TIC), is committed to complying with all customer and regulatory requirements, internal procedures, and voluntary programs to which it subscribes. We, as an organization, strive for excellence in our quality, environmental, health, safety, and information security activities in order to meet and exceed the expectations of our customers, employees, and community.

We are committed to teamwork and continuous improvement of our key objectives:

**Quality** – Offering the best products and services to exceed customer expectations.

**Environment** – Enhancing our environmental initiatives by reducing, reusing, recycling, and conserving resources in all operations within our means.

**Health and Safety** – Ensuring a safe, hazardfree workplace, promoting health and safety collaboration, minimizing harm risks, and preparing for emergencies.

**Information Security** – Protecting the mission, functions, brand, reputation, information, assets, and individuals-toshiba.policytech.com.

**Competency** – Equipping employees with the training and tools needed to effectively implement this policy and perform their roles.

**Corporate Social Responsibility** – Promote positive impact in our communities through our actions.

TIC senior management endorses the policy's goals and expects all staff and partners to uphold the Quality, Environmental, Health, Safety, and Information Security Policy.
